TASK ANALYSIS: Backhand Shot (Badminton)

Visual Description

Student will start in ready position (eyes forward, shoulders and hips square, knees bent and feet shoulder width apart). Open up body to non-dominate side, shifting weight to back foot and bringing racket backwards. Shift weight to front foot while swinging racket forward and contact shuttle in front of body, following through across body and finishing in the ready position.

Movement Sequence	***Cues***
* 1. Ready position a. Eyes forward b. Shoulders & hips squared c. Knees bent d. Feet shoulder width apart	1. Ready*
2. Grip	2. Grip
* 3. Open to non-dominant side shifting weight to back foot	3. Open*
