

Setting up a Badminton Court

A badminton court is 44 feet long and 17 feet wide for singles and 20 feet wide for doubles (see diagram below). The lines should be 1 1/2 inches wide, and the color of the line should be in contrast to the floor. In this diagram, the numbers represent length in feet. *Please be aware that 1.5 stands for 1 and 1/2 feet (or 18 inches) and 2.5 stands for 2 1/2 feet (or 30 inches):*
