

# TYPICAL COURT LAYOUT for a permanent horseshoe court.

Pit size (recommended): min. 33" inside width & 48" lght. which leaves 12" areas in front and behind the pit for crossover and 19.1/2" width pitching platforms. Same dimensions work well for raised pits.

The area in front of and behind the pit when pit is less than 72" in length is to be surfaced. Similar surfacing to pitching platforms is recommended.

12" REAR EXTENSION TO PITCHER'S BOX (recommended)  
 The pitcher's box is subdivided into 2 pitching platforms and a pit. See RULE 1 for dimension allowances.

Minimum 4" thick reinforced concrete recommended for paved surfaces.
